

## Why use HDG as your Light Gauge Engineer?

---

HDG can save you time & money, simplify installation and reduce gauges for your projects.

- **Free lump-sum pricing** makes budgeting simple.
- **Free preliminary member sizing** to help facilitate your bid estimates.
- **1 or 2 week turnaround on most projects**
- **Competitive pricing.**
- We make ourselves available when you need **answers during design & construction.**
- We adjust our design solutions to **accommodate your preferences** on each project.
- We provide **full size shop drawings including but not limited to:**
  - **Key plan of building showing grids and section cuts**
  - **Full height wall sections showing member sizes, connections, etc.**
  - **Window and door schedule with elevations and assembly types.**
- **Everyone (including Architects & General Contractors) compliments our drawings.**
- **On call Engineering Support** throughout Design & Construction until job is complete.
- No Welding
- **Great Reputation!**

### Additional Benefits...

- **Save \$\$\$ Using Independent Light Gauge Engineer;** don't use supplier that specifies their own product.
- High quality, well detailed and **installer friendly shop drawings.**
- **Experienced Engineers available** to discuss options and alternatives.

### Even More Benefits...

- We **minimize proprietary connector requirements.**
- **We provide you with connector options** (i.e. TSN, Dietrich, Marino-ware, etc.) on the shop drawing package.
- We **adjust our designs to meet your preferences.**
- We always try to **reduce gauges shown on design drawings** to save money.
- We typically provide one OR two piece headers - **NO MORE 4 PIECE BOXED HEADERS.**
- We have **extensive experience with all buildings types** including both non-load bearing and **multi-story load bearing buildings** (i.e. hotels, dorms, etc).
- **We understand the thought process of the architect / engineer of record** and utilize this experience to ask / receive questions to **keep the production moving forward.**
- **We are licensed and provide services throughout the United States and its territories.**
